MINI ECON-O-RING

FEATURES

The mini is as simple as 1 - 2 - 3. With the ability to adjust from 47" (1.2M) to 98" (2.5M) kiln diameter, the Mini Econ-O-Ring can be used with many different vessel sizes.

The Mini Econ-O-Ring is a great alternative for pogo sticks, jack and timber, or glueing.

Mini Econ-O-Ring can be used in burning chambers for paper mill drying kiln, tertiary return duct in a cement plant, satellite cooler tubes on a cement rotary kiln, and small vessel, kilns and furnances.
